

Jeshua: The Personal Christ Vol. 7

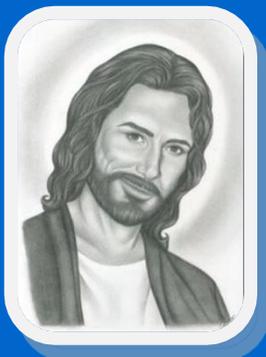

Chapter 19 -Your Robotic Self

Study Guide

November 4, 2020

Volume 7, Chapter 19

“Allow the power that you feel rising up within you, the longing, the remembrance of civilizations when you knew yourself to be divine, when you knew only to dance as the Light. Remember and bring forth that power and express it as love to one another, and you will bring forth miracles.” *Jeshua*

Introduction

Jeshua gives us an image which we can relate to - that of a robot, to explain how our unconscious self gets entrenched in reacting automatically to situations, so that we forget and deny that we are making choices. We start thinking “well, that’s just who I am”. But when we awaken to that fact that we are being robotic and just reacting and then choose anew, we regain our freedom and “start thinking on our own”.

The powerful learning here is also that *we are not victims* of our programmed perceptions but **“everything that comes to your awareness comes by your invitation and you are strong enough and powerful enough to deal with it.** It comes in perfect timing to help you **remember Who you are, to remember the Love that you are** and have always been and will always be.”

The power to change comes the moment we give ourselves permission to think new ideas, to envision Love and service to others. It takes “courage to act differently, to make new choices, to speak your truth”, but this is a choiceless choice because our “Christ Self will not be denied.” And once the door has been opened “even a little crack, there is nothing that can stop the Light from coming through.” So become conscious of your own power and watch the evidence of your divine nature manifest before you. Appreciate your creations.

The power principles of “Your Robotic Self

- “Human experience is not the easiest experience.”
- When we get immersed in the physical world and its programmed reality, we can get lost in its “robotic” perceptions, actions and reactions.
- Remember that we “invite everything that comes to our awareness”.
- It is important to remember We are “strong enough and powerful enough to deal with it”.
- When we allow “a little crack of longing and remembering”, the Light of our being rushes in to open the door of our hearts.
- Give yourself credit and Love for everything that you have done in your lifetime.
- Also allow yourself forgiveness for judging yourself and forgetting who you truly are.

**Affirmation
for the
Week:**

**“I release my
robotic
programming
and claim my
Divine Self.”**

Jeshua

Discussion Questions

- What passage in this chapter touches your heart? Your mind? Your imagination? Changes in how you understand yourself and your life?
- Think about this quote (page 198) in the context of the upheaval that seems to be happening in the world now. “Everything that comes to your awareness comes by your invitation and you are strong enough and powerful enough to deal with it. It comes in perfect timing to help you remember Who you are, to remember the Love that you are and have always been and will always be.” Think about the fact that we perceive or receive selective information about the world events and that we see the world “not as it is, but as we are”. Give an example of what perceptions you have “invited” into your world view. How are you dealing with perceived “negative” news? How do you balance that with life-affirming examples in your life? Discuss with your partner.
- Jeshua tells us that “As you go through the next few months, you are going to be seeing more and more of the robot self of others coming up in actions, and you are going to be having opportunity to love them through it.” Share your thoughts with a trusted friend/partner on how you can stay centered in love instead of activating your own robot self in reaction to them. Encourage each other to “act differently and to make new choice” then you have ever done before in similar circumstance. It is the time to rise above divisiveness the robot self.

Assignments

- What are your robotic thoughts and patterns? What assumptions do you have of others of another group? What are your stereotypes that shape your reactions to others? We all have them as a result of the programming that we have received. The power is in recognizing them and putting them to the test and discarding any perceptions that do not feel like Love, Acceptance and seeing the Christ Light in everyone you meet. Think deeply about this exercise and take it into meditation and let your higher self direct you to new understanding in how to move past this part of you and claim the Light and Love that you truly are. Record this in your journal or computer. Practice new thinking.
- Jeshua gives us a clear path to “put on your hard hats, put on your fireproof jackets, and listen to the voice of the world, and yet know that that voice is old thinking. Put forth your own energy into Love and new visioning as to what truly can serve the brothers and sisters.” Make a list

of how you can be the beacon of Peace and Love whenever you hear of the old robotic messages of divisiveness and unrest. Own your power, even if it takes moment by moment affirmation of your divinity. “The Christ Self will not be denied.” Practice the new patterns and share with trusted friend to give and receive strength.

- Jeshua assures us that “once the door starts to open even a little crack of longing and remembering, there is nothing that can stop the Light from coming through that crack in the door, and before you know it, the door opens even further.” What does this mean to you? Who or what are you longing for or remembering? And when that Light comes in, how do you feel? What are you experiencing? Can you remember your divinity? Your power? God’s infinite love for you? Meditate on seeing the door opening and let yourself fully embrace this experience.
- Jeshua assures us that “You have known civilizations and you have been part of civilizations which knew equality and respect one for another. You know your divinity and you know that you were playing on holy Mother Earth or on some of the other planets or in some of the other galaxies. You recognized in those civilizations that everyone was from the divine Source.” Even here on earth in various ancient epochs, archeologists are uncovering ancient civilizations around the world some of whom lived in peace, or at least without evidence of weapons or fortifications. There are many references on Google. Here’s a history article, I found interesting that sites various findings with civilizations that you might interested you as well: <https://historycollection.com/20-incredible-ancient-civilizations-and-cultures-that-we-know-surprisingly-little-about/8/>
- **Affirmations for the Week:**
 - I release my robotic programming and claim my divine self.
 - I have the strength, power and courage to meet every situation.
 - I remember the feeling of Home and unconditional Love.
 - I choose to abide in Peace and Love.

NOTES:
