Volume 7, Chapter 6

“In truth, there is only One Reality, and it is the divine holy essence experiencing and expressing as the many.”

Jeshua

Introduction

Jeshua *really* wants us to understand how powerful we are! He keeps on approaching this topic of our AWAKENING to our divinity from many different angles, even teasing us, to shake us out of our constricted images of ourselves. “If you want to walk on water, start with a puddle...or some ice cubes.”

“**Awakening is a miracle.** The meaning of life is to be in love with life. If you want to demonstrate happiness, smile.” He wants us to realize we are perfect right now and can claim our happiness now, without judgment of how hard we think that we have to work at it.

The intriguing suggestion that he hints at in this chapter is that “You invite ones to come into your hologram, into your reality, and you feel that they are sharing the hologram with you. Now, in truth, it is your reality, and they do not really exist as separate from you. You have fashioned a hologram that takes in All, and it seems to be a shared hologram. It is your hologram, expanded.” Thank you all for being in my expanded reality, as I am in yours!

The power principles of “The Shared Hologram”:

- We set the changes in motion some time ago because we wanted to know the “holy Self of you”.
- We have created many dramas, realities or holograms in order to experience of all aspects of ourselves and to know our creativity.
- We participate in each other’s holograms as actors would in various dramas, but there is only One Reality, that of Divine Holy Essence.
- We are perfect right here and now and don’t have worry about “improving” ourselves. We can choose to be happy right now.
- We are powerful. “Anything we believe, we can do, and we can do it easily. It doesn’t have to be difficult.” There is power in our beliefs.
- “The meaning of life is to be in love with life.”

Discussion Questions

- What passage in this chapter touches your heart? Your mind? Your imagination?

Affirmation for the Week:

“I awaken to my divine power. I know I AM the Christ.”

Jeshua

- What does “Awakening” mean to you? Have you felt that you were asleep or not fully participating or creating your life at different periods of your life? How does being AWAKE feel to you now? What is different? Give some examples and journal about the different states of being that you have experienced. Discuss with your partner.
- What point do you think that Jeshua is making when talks about the whales and dolphins (page 64) walking on water? What about “appearing and disappearing” at will? How do we change our beliefs about what we can or can’t do?

Assignments

- Jeshua gives us a fine assignment (page 69) on what we can do from our awakened consciousness by being in the world, but not of it. “I am going to look at the drama of the world, I am going to be aware of it, and I’m going to send my love to the places that seem to need it. When ones ask me to keep them in mind in my holy vision, I will do that, because I know that they are whole.” It sounds like a practice also known as affirmative prayer. So consciously do that at least once a day, especially if you hear about the news of the world where there is a lack of love. Hold the situations and people in the holy vision of their perfection. Give your LOVE to that, (streams of Light from your heart) instead of the separated ego’s call for worry and fear. Notice how your feelings and peace of mind shift and change in your life when you do this. Dare to be in LOVE with LIFE! Behold and observe with curiosity. Write down one of these observations and discuss with your partner how this adds to your awakening to your power.
- Jeshua liberates us from the belief in “process” especially in experiencing happiness. All you have to do is SMILE “that send a message throughout the body, and all of the cells respond and know that you are happy because you are smiling.” Try upping the amount of time that you Smile each day, even if it is only to yourself. You can choose the top of the hour as a reminder to smile. Try going to sleep with a smile and waking up with a smile. Notice how much more alive you begin to feel when you do this for a week or so. Combine it with conscious breathing and make it a life-long habit.
- Affirmations: Jeshua gave us more beautiful affirmations in the chapter. Choose the ones that feel right for you at this time and use:
 - “I deserve to awaken.”
 - “I awaken to my divine power.”
 - “I know I am the Christ, the divine Self going forward.”
 - “I remember the One of us.”
