

# The Emergence Of The Christ Energies

2003-06

Beloved ones, in this month of your counting there will come a momentous day. You will know it as June 22nd, the day of greatest light in the northern hemisphere. In the southern hemisphere it will be the day of greatest opportunity for light within. On that day there will be an influx of light from ascended Masters and ones of Christed consciousness, if you will receive it, adding to the vibratory evolution of the beautiful light being, this planet, our holy mother, the Earth. It will be a day of emerging Christ energies in a newly awakened form: a form of quiet peace and joy, a form of inner stabilization.

Mark this day on your calendars/appointment books as an appointment with your Self. Upon first awakening, affirm in Remembrance, "This is the day that the Lord [you] hath made; I will rejoice and be glad in it." Breathe deeply of the freedom of the breath, slowly, consciously. Dedicate the day to the remembrance of Self and rejoice in all that you do. Gather unto yourself all the beauty you can acknowledge, the treasures of books, teachers, tapes, recordings which have led you to the place of dedication and Remembrance. Gather the crystals, the accoutrements of ritual which have served you, and bless them with your conscious awareness of Oneness. Gather with friends of like mind, physically if possible, or with your technology and telepathic qualities. It will be a day of celebration.

Now, a word of caveat: do not allow separated ego to judge the results and experiences of the day. It is separated ego's job to bring you the silver platter of possible judgment, but that is all it can do; it is your servant. The gift of the day will not be measured in quantity or in human judgment, but in quality. Even if you are required to be in service that day and have little time to yourself, even if you forget (which the Greater Self of you will not), rejoice in the delicious moment when you **do** remember.

My blessings I bestow upon you this day and every day. The Self of us is bringing forth the Christ energies upon this plane.

So be it.
