

Jeshua: The Personal Christ Vol. 5

Chapter 11 - The Conversation of One

Study Guide

January 9, 2019

Volume 5, Chapter 11

“You are all star seeds. Every one of the brothers and sisters upon our holy Mother, the Earth, is a star seed from various constellations with various consciousnesses, various potentialities.”

Jeshua

Introduction

In this chapter Jeshua picks up where St Germain left off from the Council of One to the Conversations within the Council of One. The conversations seem to be ongoing as we participate in this grand experiment on Mother Earth of diversity within the Oneness of the One Mind.

However, the information Jeshua shares with us is a grand overview of the process by which we find ourselves here. For me it raises more questions: Which stars exactly? Are the stars of our origin all homogeneous in their cultures and is that why they want to see what the diversity melting pot looks like? Was the human form genetically engineered for this planet specifically? (The story of Eve being created from Adam’s rib suggests something along that line to me). If the space brothers, or our ancestors are still watching us, do they ever intervene and if so under what circumstances? Or is there really a prime directive of noninterference? I sure would like to know what history is “embedded in the very cells of the physical body, with history embedded in the subconscious memory”.

Jeshua states that the “experiment is not finished.” We are still evolving in wisdom, generation by generation, especially as we behold the Christ energy of each person. “The conversation of One is still conversing with Itself to see where this is going to go, because you do not know; I do not know; the One does not know the improv. Only the final goal is known: the final result of the At-one-ment.” This will come when all people on all the galaxies come to the realization of the One Mind. That will happen “in an instant that is within and outside of time.” That is an intriguing concept in itself. Being within and outside of time? No wonder Jeshua calls it “exciting”.

**Affirmation for
the Week:
“I Honor the
Christ energy
in each person,
regardless of
our
differences.”**

Discussion Questions

- What passage in this chapter touches your heart? Your mind? Your imagination?
- How do you relate to the concept of being a volunteer star seed in this melting pot experiment? Does it ring true to you?
- Knowing that our diversity of perspectives comes from the many cultures of the many stars has helped me be more compassionate to others whose ideas I find difficult to understand. We all really are “from other planets”. What differences and similarities have you noticed? Make a list. Does it make a difference in how you relate to other humans?
- Have you ever accessed the history in your cells or subconscious? If so, what did you find?

Assignments

1. Jeshua tells us that our country is a microcosm of this grand experiment and we are developing the “techniques, stratagems, methods, understanding of how to work with each other in this melting pot.” Are there methods that ancient or modern cultures have developed in interacting with each other that can add to the knowledge/wisdom of not only our earth, but could be universal? Do some research as to what these strategies might be. (Examples such as treaties, councils, laws)
2. Our “space brothers and sisters” may be trying to communicate with us through sacred geometry patterns known as “crop circles”. Visit the following website:
<https://temporarytemples.co.uk/crop-circles/2017-crop-circles>
It contains many years of photos and documentation of crop circles from all over the world, but mostly centered in the UK. Explore them and choose one or two that really attract you above the others. Meditate one or more and see what comes up for you. Does it give you any insights as to who makes them – perhaps by the space brothers and sisters that are watching and assisting us? Print one of your favorites and bring to our group discussion, we will use these images in our meditation.
3. Use this affirmation daily: “I Honor the Christ energy in each person, regardless of our differences.” Enjoy!

NOTES
