

# Jeshua: The Personal Christ Vol. 5

## Chapter 8 - Plugging into the Grid of Light

### Study Guide

November 28, 2018

Volume 5, Chapter 8

“You are the power of Being. Every one of the brothers and sisters activating the bodies, and the ones who are unseen, are of divine Intelligence.”

Jeshua

## Introduction

Jeshua continues to teach us about the grid of Light. Obviously it is very important that we get it. “There is no place where there is not Intelligence.”

He gives us the steps to help us connect with the grid:

1. Take the deep breath, which brings you to a place of bridging of physical with spirit.
2. Imagine how it feels to be part of the grid of Light of divine Intelligence, connected to the planet itself.
3. Begin with willingness to allow yourself to plug in.
4. If you want a tangible touchstone, light a candle, expand your sense of smell with a fragrance, play a musical tone.
5. Affirm “I am consciously plugging into the grid of Light, the energy of divine wisdom all around and within me. I am waking up to my feeling of divine power. I am acknowledging the divinity of my being here and the miracle of life itself.”
6. Go about your daily activities knowing that you are plugged in, as if you are divine Intelligence, divine Consciousness walking the face of our holy Mother, the Earth.
7. Look for the good in everything. Call in the Divine Intelligence of the grid. The grid of Light and “divine Intelligence which you are has never wavered and never left you.” Feel it and live it.

### **Affirmation for the Week:**

“I am the creative power, which has brought forth everything – and I call it all good.”

---

## Discussion Questions

- What passage in this chapter touches your heart? Your mind? Your imagination?
- Jeshua once again challenges us to expand our consciousness and “plug in”? He reminds us that there is more than just the temporal power, worldly power that we think that we need to defend. How does this Grid of Light help you with this expansion?
- “You have a place in all that is going on and a purpose. You have agreed to a divine purpose to bring about the Awakening, to remember how it is to go in peace, how it is to go in innocence.” Do you feel that connecting with the Grid of Light will be empowering to this purpose? If so, how?

---

## Assignments

1. Follow Jeshua’s instructions on plugging into the Grid of Light. Then throughout the day remind yourself that you are plugged in. Use a reminder device – perhaps your phone reminds you, or you place affirmations in strategic places. Notice what is happening and how you are feeling?
2. Remember that you are connected with Infinite Intelligence. When you feel that you are “blocked” or “swimming upstream”, stop and notice if you are feeling the connection. If not, reconnect consciously, using whatever analogy works for you such as the plug or a ray of light or putting down a root into the ground. Perhaps just a deep breath and a prayer. Notice how it feels when you reconnect. Journal about your experiences with these exercises.
3. Use one of the meditations from the Children of the Sun Humanitarian Foundation, to focus on connecting to the Planetary Crystalline Grid: <https://childrenofthesun.org/oneness-transmissions/> I have found them to be very much in alignment with Jeshua’s messages over the years.
4. Use this affirmation daily: “I easily connect with the Grid of Light and use this power for the Awakening.” Enjoy!

## NOTES
