

# Jeshua: The Personal Christ Vol. 6

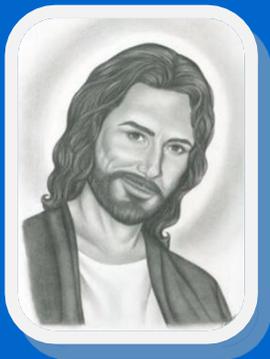

## Chapter 11 The Voice of the Brotherhood

### Study Guide

January 8, 2020

Volume 6, Chapter 11

“Remember  
What you are,  
the extension of  
the one Creator,  
the one creative  
Isness, Thought  
Itself going  
forward,  
creating moment  
by moment the  
reality that you  
say you live in,  
and when you  
stop and listen  
for the Voice, it  
changes  
everything  
around you.”  
*Jeshua*

## Introduction

It turns out that the more accurate description of the Brotherhood is to call it the Council of One. And our “higher Selves” are all part of it, “because you all have a seat at that round table”. It’s a fascinating image since there no “higher or lower” place. The Voice of this One Council of the Higher SELF is the energy within each of us that wants to know how to bring more harmony, understanding and divinity into our lives. It is the guidance system that brings us Home.

Again Jeshua tells us that we are each “a point of Light” and so is our holy Mother, the Earth. Though it’s hard for me to imagine how we do this, he says that we “do the miracle of the coalescence of Light into a denser form to bring about the body.” Apparently, even as we are walking, we are creating the density of the earth beneath our feet and everything is “malleable, changeable and you can change what is happening around you.” That does boggle the mind!

### The power principles of The Voice are:

- **Accept the possibility that there are many realities.**
- **See yourself as a powerful Point of Light that has the power to create and change your reality.**
- **Listen to the Voice of your Higher Self, the Master that you are and see everything from a place of Light.**
- **Release the habit of judgement as you recognize your own repeating patterns. “Judge not, lest ye be judged.”**
- **Awaken to the truth of being an extension of the Creator and claim your power of creation.**
- **Breathe and allow light into whatever seems to be dense.**
- **Live from the perspective of the Beholder and as the Divine Intervention.**
- **Allow yourself to live in joy and appreciate the Light Being that we brought into manifest form – Holy Mother Earth.**
- **“Come home unto me.”**

---

## Discussion Questions

- What passage in this chapter touches your heart? Your mind? Your imagination?
- What the world has defined as “Divine Intervention” implies that it comes from outside of us or is miraculous beyond our understanding or ability to control. **What do you feel about Jeshua saying that we do “Divine Intervention”,** every time we choose to come up higher in our understanding of Who and What we are; every time we choose to listen to the Voice? Can you claim that you are Divine Intervention? Look for examples in your life where you have made a difference in someone’s life or been “an answer to someone’s prayer”.
- Jeshua is quite firm about releasing our habit of JUDGEMENT. “Because in that moment you are judged by your own judgement, standing in the middle of the hayfield of judgement.” What does he mean by that?

---

## Assignments

- Jeshua tells us to “allow yourself to be the divine intervention that cleans up holy Mother Earth by your thoughts and by your action.” Perform such a “clean up” at least once in the next week. Then increase the number of times that you do this from the perspective of you being the Divine Intervention and the Beholder of what you create. Write about it in your journal or share with trusted friend.
- Jeshua teaches us how we can experience living from a place of Light. Try this exercise: “Allow the molecules of whatever seems to be dense to expand so that you can see the light in between every molecule, the light that is in between every word that is spoken, every thought that is thought, every choice that is made. Allow the focus on the Light.”
- **Affirmation:** I am the master who is creating my body, this experience, this reality moment by moment.

### Affirmation for the Week:

**“I am the master who is creating my body, this experience, this reality moment by moment.” Jeshua**
