

# Jeshua: The Personal Christ Vol. 6

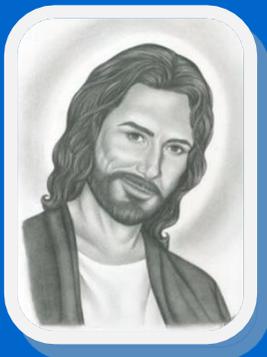

## Chapter 13 The Measure of Mastery

### Study Guide

January 22, 2020

Volume 6, Chapter 13

“Why am I here? It is to be the Light that lifts up the world. It is to be the master in realization, and to know that every issue that comes to you, you have invited, in order to know the divine power of choice to live in a different space.” *Jeshua*

## Introduction

In this volume there is an increasing emphasis on our true Divine identity. We are courageous masters experiencing this reality as a choice and knowing that we “invite every issue” in order to **bring it to the Light and to find a way to Peace.**

Jeshua acknowledges us as walking on the Earth during Atlantean and Lemurian times and whenever there has been a “turning of an age”. We have left our energy imprint wherever we have been. What adventurers we are!

It is a very powerful statement that “Everything is open to you. Everything.” It parallels the message of a previous chapter where he told us that “You create everything for the purpose of seeing the love in it, because **everything is a gift of love to you.** Everything.”

### The power principles of The Measure of Mastery are:

- **Accept the fact that each of us is a courageous master** who has chosen to be here at this time of awakening of consciousness.
- **The Measure of our Mastery is in the time it takes us to move from inner turmoil over an upsetting event into Peace.** Yet there is no judgment about it.
- **Peace can be restored by taking a deep breath and realizing the “blessedness” of everything, since it all leads to the atonement.** Be joyful in the face of sorrow.
- Remember that our purpose is to be **“the Light that Lifts up the World”** and to choose to live in the **“space of Love”** and comfort one another.
- **Be aware of all the “treasure” that comes from every experience. “You never truly lose anything.”**
- **Celebrate your Self every day.” Claim the perfection that**

**you are in the eyes of Mother/Father God.**

## Discussion Questions

- What passage in this chapter touches your heart? Your mind? Your imagination?
- What is your reaction to Jeshua's "measure of mastery"? Can you give an example of what you know of Jeshua's life? What about your own measure of mastery? Have you noticed that you come to Peace more quickly in your life, knowing that you created the exact circumstances that are upsetting you and that you can always look at them as blessings?
- Jeshua tells us that we are extensions of the Creative Principle and therefore we are Perfect. Have you ever been in that space of Love so great that you can experience yourself as not only good enough, but Perfect? What did it feel like? Are you able to maintain it?

---

## Assignments

- Recall a painful incident that upset you from a decade ago. Can you now look at it from the point of view of your Master self and see "goodness" in it. Let yourself journal about this topic. Remember – No Judgment.
- Do the exercise with the meditation on the candle and "know yourself to be that light" (on page 102). "It is the state of mind, it is the consciousness that determines what you see your life to be and how you see it to be." What is your experience and how do you choose to see it? Contemplate it, breathe and practice Peace.
- Jeshua tells us that "truly you never lose anything". That is not an easy concept to embrace, when you feel the loss of another person in your life. How does this experience of physical loss square with being able to see the blessedness in it and come to Peace? Journal about it.
- You might be interested in a book [The Lost Lands: A Magickal History of Lemuria, Atlantis and Avalon](#) by Lucy Cavendish which I found fascinating. There are mentions of the times that Jeshua hints at in this chapter.
- Affirmation: "I am living the I Am Intelligence. I am Love. I am Okay."

### Affirmation for the Week:

**"I am living the I AM Intelligence.  
I am Love.  
I am Okay."**

*Jeshua*
