## Chapter 2 The New Consciousness Study Guide

October 9, 2019

Volume 6, Chapter 2

“It is a great time to be incarnate. Is it because of Now. It is because of the new consciousness that you have been preparing for yourself and for the collective, a process which began a long time ago.” Jeshua

### Introduction

Did you know that we are all a part of a grand cosmic experiment? The experiment, which we have all volunteered for, is based on bringing in a great diversity of cultures from many star constellations onto this planet. The goal is to see if we can overcome the suspicion of the “other” and instead witness the “divinity of each point of Light”. Can we all get along?!

Jeshua assures us that we have been evolving into a new consciousness, away from the belief in separation toward that of “**at One-ment**”. The point of power is realizing that everything that happens “serves the atonement”. Even if things look bleak and dark, there is a higher consciousness at work.

Jeshua gives us a wonderful formula to nurture this new consciousness and manifest it in our reality (which we can do moment by moment).

#### The power principles are:

- **Envision** the qualities that we want to see manifest.
- **Know** to the depths of your being that all is in Divine Order.
- **Trust** “that always, when you come from the place of the heart, that which you speak will be in love.”
- **Speak** what you know. This is the time we have been waiting for and each voice makes a “*mark on the collective consciousness*”.

When we truly embody and live in the NOW moment in this new consciousness we will “**remember how it feels to be truly alive, knowing that you have the divine power**”.

## Discussion Questions

- What passage in this chapter touches your heart? Your mind? Your imagination?
- When you read the Power Principles of: **Envision, Know, Trust and Speak**, which ones do you feel you do already and which ones do you feel hesitant about or stumble over? Give examples. What will it take to truly put these principles into action in your daily life?
- Have you ever gotten to the point of “greatest density and asked, from your soul, ‘Does it have to be so dark, so dense?’” Did you have an epiphany? What made the difference in your turn-around? Did you connect back to the “Original Spirit”?
- I once lived in a place that had groups who gathered to “pray against consciousness” in a fundamentalist religious context. Why do you think that the new consciousness is a threat to people? Is there any part within you that might be a bit hesitant about what it means to be in At-One-ment?

### Affirmation for the Week:

*“I am truly alive in my Divine Power!”*

## Assignments

1. There are many visionaries and teachers now on planet earth who are saying the same things about our Now times as being pivotal in the evolution of consciousness as Jeshua does. If you are interested to see how their points of view dovetail with what Jeshua is telling us, read some of the works by Barbara Marx Hubbard, Bruce Lipton, Jeanne Houston, David Wilcock, and Unity founders Myrtle and Charles Fillmore, among others. Or you might check out the Sedona Journal, which has many authors who are channels of the new consciousness. A lot of material is available on the internet and YouTube about them. Do a bit of research and come prepared to

share your findings as they relate to this chapter.

2. Write down something or some situation that you want to manifest. Then focus and use the four power principles: Envision, Know, Trust and Speak for the next two weeks. Spend a few minutes every morning directing your heart and mind to this desire and the four steps. Record how you experience the evolution of your manifestation. If there is a lack of manifestation, work with the insights you might have about what thoughts or habits may be temporarily blocking your desire. Always affirm Divine Order.
3. Use the following affirmation daily for at least a week “Nothing can threaten or change the divine Light that is within me.”
