## Chapter 5 Manifesting Your Desires

### Study Guide

November 6, 2019

Volume 6, Chapter 5

“When you are determined, truly determined, and you practice seeing anew, asking how you can see something differently, the Truth has to be revealed to you. In truth, are right in the midst of that which you seek.”  
Jeshua

## Introduction

Jeshua sure makes manifesting our desires seem very easy in this chapter – we already have everything that we desire, we just have to see our reality differently “that which you have desired to see, to feel, to realize, is in our midst.” We just have to put up with the “nuisance” of linear time. Well, that’s a big obstacle for most of us, who already feel the pressure of time. But Jeshua walks us through how we can reprogram our minds by building on the concept he has already introduced to us in previous chapters “I am determined to see things differently” and the “most wonderful quality of patience”.

The other wonderful part in this chapter is the reassurance that we are “greatly, greatly loved. Your Creator does not see any fault, any failing, any lack.” Wow, how wonderful to live from that knowing that we are already the Beloved of the Creator. In that space how can we feel that we are anything but already Whole and Perfect and so need nothing more?

**The power principles in “manifesting” are to ask the following questions of yourself and following through:**

- **What do I truly desire?** What do I really want to manifest?
- **Why do I want to manifest it?** What is the underlying reason that I feel that something may be lacking?
- **Take a deep breath, look around and realize that you already have it.** “I am already manifesting that which I desire. I have only to **change my perception a small bit.**”
- **“Be determined to see things differently.”**
- **Give up the struggle.**
- **Be in great gratitude.**
- **Know that you are greatly loved just as you are!**

## Discussion Questions

- What passage in this chapter touches your heart? Your mind? Your imagination?
- Jeshua challenges us believe that we are already **“whole, complete, awakened, knowledgeable, rich, abundant”** and **greatly loved by our Creator**. Have you ever experienced yourself in this state of consciousness, where you truly do not need or desire to have or be anything, but what you already have and are? How did it make you feel? Were you able to maintain that consciousness? If not, what brought you our or it?
- When you read the Power Principles, which ones present a challenge to manifesting your desires? Have you asked yourself those questions before when you were working on manifesting in your life?

## Assignments

- Contemplate or meditate on something or some experience that you want to manifest. Follow the power principles and ask those questions and practice seeing your manifestation materialize in your life. Practice gratitude that you already are manifesting what you desire. In your Gratitude Journal write about these experiences. What are your results?
- Jeshua urges us to see that we change our perception and see that that which we desire has “been around me all this time.” Give an example of when you have realized this kind of an “Aha” moment of clarity. What thoughts or feelings did you release in order to have it?
- Affirmation for the Week: “Everything that I create is a gift of Love.”
