

# Jeshua: The Personal Christ Vol. 6

## Chapter 6 Unlimited Possibilities

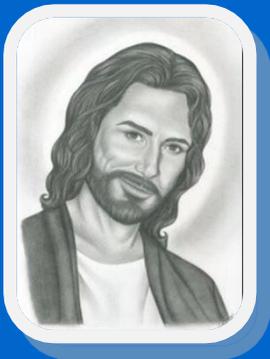

### Study Guide

November 6, 2019

Volume 6, Chapter 6

*“I walk **within** you as the divine expression of holy energy.*

*I AM. I am divine Intelligence expressing and experiencing life. How do I want it to be?”*  
*Jeshua*

## Introduction

In this exciting chapter, Jeshua takes us out of our small limited “self” and into infinite possibilities for creation from the gift of life that we have been given. He shows us that **“only you can make the choices”**. We don’t have to buy into the drama of negativity of the world. We can **“accentuate the positive”** and “contemplate what is happening from the highest point of view, to know the holiness of a situation”.

Jeshua continues from the previous chapter on the power of manifestation. He brings up “Confidence” as an important aspect. I love how he explains that it means “with fidence” which means “faith”. He assures us that **“everything that happens in the world can be healed by prayer and fasting.”**

*“Allow yourself to be the angelic being that truly you are.”*

**The power principles in seeing Unlimited Possibilities are:**

- **Pray as the Beholder, seeing the situation from the perspective of the highest point of view.**
- **Take a deep breath.**
- **Fast or withdraw your** attention from the appearance of anything other than the Truth of each one’s being.
- **Be clear about what you want to create.**
- **Turn Possibilities into Probabilities.** Act “as if” and it will be.
- **Move forward in Confidence** and allow it to be contagious.
- **Share your abundance.** “Believe that there will always be more, because there *will* always be more.”
- **Count it all as Good.** Be in great gratitude.
- **Know that you are greatly loved!**

---

## Discussion Questions

- What passage in this chapter touches your heart? Your mind? Your imagination?
- Jeshua challenges us believe that we are “the creators of wealth. And as you allow it to flow through you, as you have the confidence that there is going to be more, there will be more; always there will be more. You have unlimited possibilities.” Have you ever experienced yourself in this state of knowing that you are the always creating wealth and felt God’s abundance?
- How then do we explain poverty in our society/world? Is there a purpose to poverty? Have you experienced poverty? Do you remember what your thought patterns were then?
- When you read the Power Principles, which ones present a challenge to manifesting unlimited possibilities?

---

## Assignments

- Pray and Fast regarding a situation that you see as negative. Journal in your Gratitude Journal about how you can “count it all as Good” and how there is a positive possibility in it.
- I love it when Jeshua gives us clear homework such as “If you feel that there are blockages to what you would like to do, if you feel that you are in a fog about what to do, **do not fight the fog**. Let it be there. It is as a nurturing mist. Go within and ask yourself, ‘**How do I want this day, month or year to unfold?**’ When you sit with that probability and it becomes part of you, then it becomes a reality.” Do this daily and record the miracles in manifestation that occur in your life.
- Affirmation for the Week: **“I am the extension of divine Intelligence. I can make all things new.”**

### Affirmation for the Week:

**“I am the extension of divine Intelligence. I can make all things new.”**
