

# Jeshua: The Personal Christ Vol. 7

## Chapter 3 - The Power of Blended Holograms

### Study Guide

July 8, 2020

Volume 7, Chapter 3

“It is time now that you let the old beliefs in fear and struggle & unworthiness be complete and that you allow yourself to feel so loved that truly nothing else matters. Feel your heart opening and know that truly you are the Beloved.” *Jeshua*

## Introduction

Jeshua continues on the theme of a hologram, telling us that we are both creating the hologram or reality of our lives and living inside of it, without the awareness that we are so doing or have a choice in changing it. This does not mean that it doesn't have vibrational substance, but that it is a lowercase “r” reality. “That Reality – with a capital “R” – is what allows you to make the holograms of the realities – lower case “r” – and to live in what seems to be quite real and yet is a hologram. Truth does not change, but realities can and do change.”

An analogy might be that the realities that we create are like the movies that we both act in and watch on a three dimensional screen. We really can get involved in that movie and feel the emotions and dramas of the characters. But it is still an illusion, a small “r”. What makes this reality possible is the Source or the movie projector, which shines the light onto the screen. This is the God Source, the one who gives us the light energy to shape into whatever realities we want to manufacture.

And when our world views and projections match up with others, than we are creating a blended hologram and those grow in power. We can continue adding energy to the old hologram of struggle, separation and fear, or we can create and blend a New Age hologram “as divine extensions of the One Creator”. And the reason to do this is “when you get all of the holograms lined up and agreeing with each other, there is an acknowledgement of Oneness.” The One expressing as the many.

### The power principles of “The Power of Blended Holograms”:

- **Belief systems create shared cultural realities, such as the need for struggle, defensiveness and belief in separation.**
- **Become aware of the hologram/illusion in which you are living and that you have a CHOICE to keep creating it in the old paradigm or create in the one in alignment with Oneness.**
- **“You not only have power, you are power, you are the power of choice and you are going to be exercising that power more.”**
- **Whoever is in your hologram is there to be loved.**
- **The New Age hologram is already here. “Bring more light into it.”**

---

## Discussion Questions

- What passage in this chapter touches your heart? Your mind? Your imagination?
- Jeshua gives us words for our times “It feels like –‘the best of times and the worst of times’ and it is. It is the best of times because you are going through the worst of times to make yourself acknowledge the best that is in it. It is the best of times, and it can feel like the worst of times, but know that you are birthing a New Age.” How do you relate to this these seemingly opposite possibilities? Look closely at what you label as the worst in your life or in the world during these past few months. Can you find the “best” inside what looks like the worst? Do you see how it shifts your projection of reality or how these times are birthing a New Age? How does it bring you to the unchanging Truth?
- “You are going to see more and more ones coming together with the same shared hologram of wanting to be recognized as equals, as divine extensions of the one Creator.” This prediction is now at the forefront of our society where everyone is being challenged to accept and love our brothers and sisters of every race, creed and sexual orientation. Holograms are shifting and we must examine where we might have undiscovered “blind spots” that we have inherited from the dominant hologram. What assumptions do you have about others that might keep you from embracing them as your brothers and sisters in full equality? This is a lifetime journey – seek to become more understanding and conscious in your thoughts, words and actions. Treat each person with love.

### Affirmation for the Week:

**“I open my heart and know that truly I Am the Beloved.”**

*Jeshua*

## Assignments

- Jeshua gives us a fine assignment: “Every day find for yourself something to celebrate. You have an opportunity to change the way *you* look at the world and to change the way the brothers and sisters look at the world.” This suggestion is beyond being grateful. He tells us to CELEBRATE! That is taking our gratitude to a higher level. Can you celebrate something every day? Try it. Write about your experience in your gratitude journal and share with your partner.
- Jeshua has often told us to SMILE. Here he gives us another challenge to smile not just at those we know, but to “Smile at them as if you know

them. It will change their day. It changes your hologram and it changes theirs as well, because you have overlapped for a moment in the smile, in the Light.” This is especially interesting to do if you are wearing a mask and “social distancing” in the COVID time frame. Challenge yourself to smile with just your eyes and your kind words. See how many holograms you can impact with your full energy smile. Debrief with your partner.

- **Affirmation: “I open my heart and know that truly I am the Beloved.”**

## NOTES:
